## ABSTRACT

Generated in teacher workshops as part of a project in the development of a career education learning system by the school districts of the Fort Worth-Dallas area, each of these 22 learning modules describes student activities based on a small segment of existing high school curriculum and on one of nine career education learner outcomes. The modules are arranged according to grade level in the following subject categories: Grade 9 (Typing, Physical Education, English, Home Economics--Child Development, Mathematics, Music); Grade 10 (General Drafting, English, General Metalworking, Physical Education, Music--Orchestra, Drama); Grade 11 (Homemaking--Consumer Education, Physical Education, World History, American History); Grade 12 (Trigonometry, English, American Government, Office Procedures, Art, Vocational Agriculture). Each module contains the subject, career education learner outcome, performance objective, grade level, curriculum content, activities, resources/ suggestions, and evaluation. The nine career education learner outcomes (one of which is correlated with each module) are: (1) career planning and decision making, (2) career and occupational information, (3) job acquisition and retention, (4) attitudes and appreciation for career success, (5) skills in human relationships for careers, (6) self-investigation and evaluation for career success, (7) personal/work/societal responsibilities, (8) economic factors influencing career opportunity, and (9) education/career opportunity relationships. ## P R E F A C E

How can the school curriculum be made more responsive to students' needs? Contained in this book and its three companion volumes are descriptions of a few ways in which Texas teachers responded to this question. These career education-oriented answers were gathered from twelve of the twenty education service center regions of the state. They reflect teachers' growing awareness of the support given to career education by the Texas public.

The curriculum ideas were generated in workshops conducted by Partners in Career Education as a part of a USOE-funded project. These recorded suggestions, called modules, will be combined into an ever-evolving collection of curriculum ideas and will constitute one segment of a learning system for career education.

Development of the learning system is the objective of the Partners in Career Education project. This five year project, funded by the Texas Education Agency, is sponsored by the Dallas Independent School District, the Fort Worth Independent School District, Education Service Center, Region 10 and Education Service Center, Region 11. The curriculum materials presented herein relate to two of the processes involved in the development of the total learning system. All products of the learning system will be available for dissemination. In simplest terms the major processes and products are:

### Process

### Product or System Element

I. Identification of operational definitions of career education; statewide validation of the profile of a seventeen year-old

Basic Learner Outcomes for Career Education  
(Published 1973)

II. Design and validation of measurement system: statewide tryout and field test of instruments, manuals, and interpretive guides

Texas Career Education Measurement Series  
(Developmental copy 1975)

III. Distribution of basic learner outcomes by grade level and subject area

Matrix of Basic Learner Outcomes for Career Education  
(Developmental copy 1974)

IV. Continuous compilation of classroom teachers' suggestions for fusing career education concepts and curriculum content

Exemplars of Infused Curricula Indexed According to the Basic Learner Outcomes for Career Education  
(Developmental copy 1975)

V. Evaluation of various staff development procedures for writing curriculum modules

Staff development guide  
(Developmental copy 1975)

VI. Identification of basic steps required for implementation of the learning system at the local school level

Implementation Plan (1977)

The USOE-funded project, called Texas System for Incremental Quality Increase, is administered through the Division of Career Education of the Texas Education Agency. Two cycles of curriculum writing workshop sessions are described in the proposal. Cycle I workshops, conducted during the fall of 1975, involved fifty classroom teachers from each of ten participating education service center regions. Cycle II workshops are scheduled to be conducted during the spring of 1976. The learning modules contained in this volume are typical of the modules produced by teachers in the workshops.

## ACKNOWLEDGEMENTS

Many individuals were involved in the development of the curriculum materials represented by the examples in this volume. To these contributors, too numerous to be mentioned by name, gratitude is expressed. A special expression of gratitude is made to the creative classroom teachers who have described appropriate ways of infusing career education concepts into the existing curriculum.

Personnel within various departments and divisions of the Texas Education Agency have provided strong support and guidance to the career education effort. Their assistance is gratefully acknowledged together with that of numerous public school administrative and instructional leaders.

Members of the Partners in Career Education staff are grateful to the personnel from Education Service Center Regions 10 and 11 who, over a two-year period, provided opportunities for the refinement of the curriculum-writing format and the accumulation of teacher ideas. Special recognition is accorded the Irving Independent School District for its extensive curriculum development efforts.

Appreciation is expressed to the directors and staffs of the education service centers, public-school administrators, and the fifty teachers in each region that helped make the workshops possible. Education service centers included in the Texas System for Incremental Quality Increase project are:

- Region 1, Edinburg
- Region 4, Houston
- Region 8, Mt. Pleasant
- Region 12, Waco
- Region 13, Austin
- Region 14, Abilene
- Region 16, Amarillo
- Region 17, Lubbock
- Region 18, Midland
- Region 20, San Antonio

## D I S C U S S I O N   O F   T E R M S

Although almost any of the 177 learner outcomes could be developed in any subject area and at any grade level, the matrix provides a structure for their sequential development throughout grades K-12.

Learning modules are bits and pieces of career-oriented curriculum. They are teacher-developed descriptions of student activities based upon small segments of curriculum and a learner outcome for career education.

Career Education Learner Outcomes are the 177 statements contained in the Texas Education Agency publication, Basic Learner Outcomes for Career Education. These statements were identified by a large statewide sampling of students, parents, educators, and representatives of business and industry. The outcomes are organized into the following categories:

- 1 - Career Planning and Decision Making
- 2 - Career and Occupational Information
- 3 - Job Acquisition and Retention
- 4 - Attitudes and Appreciation for Career Success
- 5 - Skills in Human Relationships for Careers
- 6 - Self-investigation and Evaluation for Career Success
- 7 - Personal/Work/Societal Responsibilities
- 8 - Economic Factors Influencing Career Opportunity
- 9 - Education/Career Opportunity Relationships

Learner outcomes have two-part numbers, such as 4:06. The digit to the left of the colon refers to one of the nine categories. Digits to the right of the colon designate the number of the learner outcome within the category.

Each of the learner outcomes has been tentatively placed in a table to show its relationship to the total school program. This scope and sequence information has been outlined in the publication, Matrix of Basic Learner Outcomes for Career Education. Each matrix page includes grade levels and subject areas deemed most appropriate for an outcome.

Performance objectives are behaviorally stated objectives which have, in some instances, been modified by teachers to fit realistic situations. Curriculum infusion is apparent in the performance objective of each module. The objective is simultaneously directed toward attainments related to the curriculum and the learner outcome. Few of the objectives encompass the entire contents of the module; most are focused upon representative student behavior.

SUBJECT: Physical Education

GRADE LEVEL: 9

CAREER EDUCATION

LEARNER OUTCOME: 4:05 The student should understand the importance of staying with a task until it is completed.

PERFORMANCE OBJECTIVE: The student will be able to (1) demonstrate the basic skills of basketball and knowledge of the rules of the game in a scrimmage session and (2) using a class-made scale, assess the extent to which he or she functioned as a team member.

Curriculum Content	Activities	Resources/Suggestions
<p>BASKETBALL</p> <p>Basic rules of basketball</p> <p>Importance of team work</p> <p>Skill areas</p> <ul style="list-style-type: none"> <li>. passing</li> <li>. dribbling</li> <li>. foot movements</li> <li>. shooting</li> </ul>	<p>The student will:</p> <ol style="list-style-type: none"> <li>1. Participate in a teacher review on the basic fundamental rules of basketball and the importance of each position in basketball.</li> <li>2. Discuss with the class and the teacher the importance of each position and specific ways in which each player supports and is supported by the rest of the team.</li> <li>3. Help the class draft a brief self-evaluation scale that could be used to rate extent to which a player worked as a basketball team member.</li> <li>4. Join in one of two parallel lines and pass the ball back and forth several times, moving back two steps after ten passes.</li> </ol>	<p>Film: "Basketball for Girls--Fundamental Techniques," 14 min., Chicago: Coronet International Films, 1972.</p> <p>Teacher Information: Students should identify the need to stay with his or her assigned task until the game is completed.</p>

Curriculum Content	Activities	Resources/Suggestions
	<ol style="list-style-type: none"> <li>5. Run the length of court while passing the ball back and forth using different kinds of passes: bounce, baseball, chest and overhead.</li> <li>6. Join in one of two lines and dribble the ball the full length of the court and then pass it to the next student.</li> <li>7. Dribble the ball around the full length of the court and through an obstacle course formed with chairs.</li> <li>8. Join one of two lines of players that are facing each other and side step the full length of the court passing the ball back and forth, and not walking with the ball.</li> <li>9. Stand in a defensive position--move side to side, backwards or forward in accordance with hand signals given by the instructor.</li> <li>10. Move from the same defensive position as the instructor gives a whistle signal.</li> <li>11. With other players form a half circle inside the free throw lane area; shoot at the basket while using the correct hand and feet positions. After shooting the basketball several times, move back a step and start again.</li> <li>12. Follow up with left and right lay-ups, set shots and post shots.</li> </ol>	<p>Whistle signals: one blast backward, two forward, three to the right and four to the left</p>

Curriculum Content	Activities	Resources/Suggestions
	<p>13. Perform follow-up drills:</p> <ul style="list-style-type: none"> <li>a. figure 8</li> <li>b. dribble game of tag</li> <li>c. 1 on 4, 2 on 2, 2 on 3</li> <li>d. scrimmage</li> <li>e. five girl/boy weave</li> <li>f. game of 21 or three feathers</li> </ul> <p>14. Participate in a basketball scrimmage.</p> <p>15. Using the class-made evaluation scale, rate his or her effectiveness as a member of the basketball team, including the factor of his or her active involvement until the game was completed.</p>	<p><u>Teacher Information:</u> Students are to observe basketball rules and play effectively as a "team member."</p>

**EVALUATION:** The student will (1) demonstrate the basic skills of basketball and knowledge of the rules of the game in a scrimmage session and (2) using a class-made scale, assess the extent to which he or she functioned as a team member.

## MATRIX OF BASIC LEARNER OUTCOMES

## Category VI. Self-investigation and Evaluation for Career Success

Learner Outcome 6:12 The student should understand that he applies or rejects values into his personal philosophy by questioning his likes or dislikes when he meets new ideas, tries the new ideas on for size, and then applies them to his value system or discards them.

GRADE LEVEL: 9

CAREER EDUCATION 6:12  
LEARNER OUTCOME:

The student should understand that one applies or rejects values into one's personal philosophy by questioning one's likes or dislikes when meeting new ideas, trying the new ideas on for size and then applying them to one's value system or discarding them.

PERFORMANCE OBJECTIVE:

The student will be able to identify those factors which contribute to fictitious writings and tell how an author's personal philosophy, as one of those factors, contributes to prejudice as identified in history and literature.

Curriculum Content	Activities	Resources/Suggestions
<p>FACT VS. FICTION</p> <p>Elements of the short story</p> <ul style="list-style-type: none"> <li>• theme</li> <li>• plot</li> <li>• setting</li> <li>• characters</li> </ul>	<p>The student will:</p> <ol style="list-style-type: none"> <li>1. Read the short story "Indian Burial," by Dean Dover.</li> <li>2. Participate in a class discussion to identify the elements of the short story: theme, plot, setting and characters.</li> <li>3. Participate in a teacher-led discussion of author's use of fact and fiction and identify passages from the story which appear to be factual and those which could be fictional.</li> </ol>	<p>Text: Pooley, Robert C. (ed.) <u>Outlook Through Literature, Unit 1, "The Short Story,"</u> Glenview, Illinois: Scott Foresman and Company, 1968, pp. 75-85.</p> <p>Text, "Author's Craft: Fact and Fiction," pp. 84-85.</p> <p>Teacher Information: Distinguishing between fact and fiction          "I" stories are not always factual</p>

Curriculum Content	Activities	Resources/Suggestions
<p>Factors influencing author's writing.</p> <ul style="list-style-type: none"> <li>exaggeration</li> <li>imagination</li> <li>forgotten details</li> </ul>	<ol style="list-style-type: none"> <li>Participate in a teacher-led discussion of the license authors have in presenting facts which may result in distortions of the truth or representations of a limited view of a subject.</li> <li>Discuss the fact that a misled reader probably is one who is unable to distinguish between fact and fiction and to identify the author's use of exaggeration, imagination or isolated incidents around which to create a story.</li> <li>Discuss each children's story and react to the characters or theme and the conclusion presented by the author.</li> </ol>	<ul style="list-style-type: none"> <li>fictionalized autobiography</li> <li>embellish facts to create more impact</li> <li>incidents are meaningless</li> <li>author tells story as he sees it or for what it means to him</li> <li>story then too is only what it means to the observer</li> </ul> <p>Teacher Information: To illustrate how fact and fiction can be difficult to separate, refer to such children's stories as "Little Black Sambo," "Jack and the Beanstalk," "Hansel and Gretel," "Little Red Riding Hood" and "The Ugly Duckling."</p>

Curriculum Content	Activities	Resources/Suggestions
<ul style="list-style-type: none"> <li>• stereotypes</li> <li>• misconceptions</li> <li>• limited experiences</li> <li>• tradition</li> <li>• prejudice</li> </ul>	<p>7. Cite examples of the way certain characters are being portrayed in TV shows and name factors which probably contribute to the authors' presentations of the characters.</p> <p>8. Compare radio programs and movies of thirty years ago with those of today in terms of treatment of minority groups.</p> <p>9. Research the available American and Texas history books identifying and discussing the ways in which Mexicans, Indians, aliens, Orientals, Germans, Jewish, Blacks and women have been depicted in history.</p>	<p><u>Teacher Information:</u> Examples of TV shows: "All In The Family," "The Jeffersons," "Rhoda," "Joe Forrester" or "The Waltons."</p> <p><u>Resources:</u> School's adopted American and Texas history texts.</p>
<ul style="list-style-type: none"> <li>• lack of information</li> <li>• political pressure</li> <li>• religious conflicts</li> <li>• superstition</li> <li>• fear within context of public opinion</li> <li>• hate</li> <li>• envy</li> </ul>	<p>10. Compare earlier histories with currently adopted texts to determine changes.</p> <p>11. Talk with class members about the ways in which various people have been represented in history, emphasizing the factors which probably influenced the authors' to depict people in certain ways.</p> <p>12. Discuss the relationship of historical views to literary works such as blacks "Uncle Tom's Cabin" and Jews (Skylock in "The Merchant of Venice.")</p>	<p><u>Examples:</u> Benedict Arnold, Russians or British during different eras, women</p>

Curriculum Content	Activities	Resources/Suggestions
<p>Prejudice</p> <ul style="list-style-type: none"> <li>. misinformation</li> <li>. fear</li> <li>. lack of knowledge</li> <li>. parental attitudes</li> <li>. peer pressure</li> </ul>	<p>13. Help develop a list of factors which contribute to prejudice and identify instances in which the factors have been exhibited in print and non-print media.</p> <p>14. Write a story about the incident that involved other people and him or her.</p> <p>15. Share the story, analyze parts he or she had to "make up" in order to "recreate a true experience" and tell what factors influenced the representation of the characters in the story.</p>	

EVALUATION: The student will identify those factors which contribute to fictitious writings and tell how an author's personal philosophy, as one of those factors, contributes to prejudice as identified in history and literature.

LEARNING MODULE  
PARTNERS IN CAREER EDUCATION

SUBJECT: Mathematics

GRADE LEVEL: 9

CAREER EDUCATION

LEARNER OUTCOME: 8:08

The student should understand what interest is and why it is a necessary charge for using other people's money.

PERFORMANCE OBJECTIVE:

The student will be able to accurately compute different variations of the formula  $I = P \times R \times T$  and understand why interest is a necessary charge for using other people's money.

Curriculum Content	Activities	Resources/Suggestions
<p>INTEREST</p> <p>Review of percent operations</p> <p>Define:</p> <ul style="list-style-type: none"><li>• <math>P</math> = principal</li><li>• <math>I</math> = interest</li><li>• <math>R</math> = rate</li><li>• <math>T</math> = time</li></ul> <p>Computing different variations of the formula: <math>I = P \times R \times T</math></p>	<p>The student will:</p> <ol style="list-style-type: none"><li>1. Observe and listen as the teacher reviews percent operations involving multiplying and dividing decimals.</li><li>2. Work percent-related problems dictated by the teacher.</li><li>3. Observe an overhead-projector demonstration of interest calculations and variations of <math>I = PRT</math> applications.</li><li>4. Define to a partner the meaning of the formula, <math>I = PRT</math>.</li><li>5. Using interview or research techniques, determine the amount of interest paid on:<ul style="list-style-type: none"><li>• a 20-year and a 30-year home mortgage</li><li>• a 2-year and a 3-year new car loan</li><li>• a \$100 loan at a bank, at a finance company and at a credit union</li></ul></li></ol>	

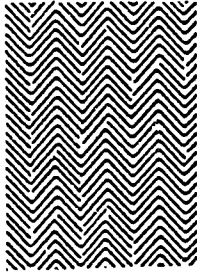

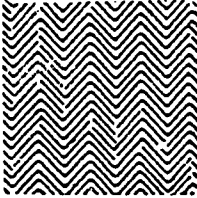

Curriculum Content	Activities	Resources/Suggestions
	<p>6. Practice calculating variations of <math>I = P \times R \times T</math>.</p> <p>7. View and discuss film on banking.</p> <p>8. Interact with a bank representative as he or she explains the relationship between the four terms in the formula, <math>I = P \times R \times T</math>.</p>	<p><u>Teacher Information:</u>  <math>I = P \times R \times T</math></p> <p><math>\frac{I}{P \times R} = T, \frac{I}{P \times T} = R</math></p> <p><math>\frac{I}{R \times T} = P</math></p> <p>16mm film: "Is A Career in Banking For You," Set 5, Color, 14 minutes, Philadelphia, Pennsylvania Counselor Films, Inc., 1972.</p>

**EVALUATION:** The student will accurately compute different variations of the formula  $I = P \times R \times T$  and understand why interest is a necessary charge for using other people's money.

## MATRIX OF BASIC LEARNER OUTCOMES

## Category IX. Education/Career Opportunity Relationships

Learner Outcome 9:15 The student should understand that by listening and reading he can be exposed and/or absorb the thoughts and knowledge of others.

LEARNING MODULE  
PARTNERS IN CAREER EDUCATION

SUBJECT: Music

GRADE LEVEL: 9

CAREER EDUCATION

LEARNER OUTCOME: 9:15

The student should understand that by listening and reading he or she can be exposed to and/or absorb the thoughts and knowledge of others.

PERFORMANCE OBJECTIVE:

The student will be able to identify, through sightreading and listening, music composed in a given major key and to discuss how the skills enable him or her to understand the feelings and thoughts expressed by the composer.

Curriculum Content	Activities	Resources/Suggestions
<p>MAJOR SCALES</p> <p>Major scales by numbers</p> <ul style="list-style-type: none"> <li>• 1,2,3,4,5,6,7,8</li> <li>• 1,3,5</li> <li>• 1,3,4,5</li> <li>• 1,3,4,5,6</li> <li>• 1,3,4,5,6,7,8</li> </ul>	<p>The student will:</p> <ol style="list-style-type: none"> <li>1. Practice singing several major scales.</li> <li>2. Sing 1,3,5 in a key within his or her vocal range.</li> <li>3. Make a tic-tac-toe graph.</li> </ol>	<p>Text: Vandre, Carl, <u>Four-Part Sight Reading Fun</u>, Melville, New York: Belwin-Mills Publishing Corporation.</p> <p>Teacher Information: <u>Have students practice</u> until thoroughly familiar with the sound.</p> <p>Teacher Information: <u>Have students sing in</u> many types of sequences. For example, 1,3,5; 3,5,1; 5,3,1.</p>

Curriculum Content	Activities	Resources/Suggestions									
	<p>4. Compose a melody within the graph using 1,3,5: Start with 1 in the upper left corner, go clockwise and end with 1 in the center block.</p> <p>5. Sing the melody for the entire class.</p> <p>6. From a musical staff, sing exercises using 1,3,5 in several keys.</p> <p>7. Sing 1,3,4,5 in a key within his or her vocal range.</p> <p>8. Make a tic-tac-toe graph.</p> <p>9. Compose a melody within the graph using 1,3,4,5: refer to Activity #4.</p> <p>10. Repeat activities #7, 8 and 9 for the following scales: 1,3,4,5,6; 1,3,4,5,6,7,8; 1,2,3,4,5,6,7,8.</p> <p>11. Participate in class discussion of how, through reading music, he or she is exposed to the composers' thoughts and feelings.</p>	<p>Suggested format: Start</p> <table border="1"> <tr> <td>1</td><td>3</td><td>5</td></tr> <tr> <td>5</td><td>1</td><td>3</td></tr> <tr> <td>3</td><td>finish</td><td>5</td></tr> </table> <p>Suggested text: Crawl, Lawton and Whittaker, <u>The Talk Song Sight Singing Series</u>, New York: Oxford University Press, p. 4.</p>	1	3	5	5	1	3	3	finish	5
1	3	5									
5	1	3									
3	finish	5									

**EVALUATION:** The student will identify, through sightreading and listening, music composed in a given major key and to discuss how the skills enable him or her to understand the feelings and thoughts expressed by the composer.

LEARNING MODULE  
PARTNERS IN CAREER EDUCATION

SUBJECT: General Drafting

GRADE LEVEL: 10

CAREER EDUCATION

LEARNER OUTCOME: 2:10 The student should be aware of various jobs he or she can have with the same skills.

PERFORMANCE OBJECTIVE: The student will be able to identify basic drafting tools and their uses and to name six occupations that require a knowledge of drafting skills.

Curriculum Content	Activities	Resources/Suggestions
<p>INTRODUCTION TO GENERAL DRAFTING</p> <p>Levels of graphic communication:</p> <ul style="list-style-type: none"> <li>. creative</li> <li>. technical</li> <li>. market</li> <li>. construction</li> </ul> <p>Types of technical drawings:</p> <ul style="list-style-type: none"> <li>. multiview</li> <li>. pictorial</li> <li>. schematic</li> </ul> <p>Drafting tools</p> <ul style="list-style-type: none"> <li>. "T" square</li> <li>. triangles</li> <li>. scales</li> <li>. templates</li> <li>. others</li> </ul>	<p>The student will:</p> <ol style="list-style-type: none"> <li>1. Read text, pp. 6-14.</li> <li>2. Participate in a teacher-led discussion of reasons drafting or technical drawing is a universal language and of the advantages of mechanical drawings over plain photographs.</li> <li>3. Take notes as the teacher describes the levels of graphic communication.</li> <li>4. Examine examples of types of technical drawings.</li> </ol>	<p>Text: French, Svenson, Helsel, Urbanick, Mechanical Drawing, New York: McGraw-Hill Book Co., 1974, pp. 6-14.</p> <p>Teacher Information: Photographs do not indicate true dimensions. Mechanical drawings show as many views of an object as may be necessary to define its exact shape and size.</p>

Curriculum Content	Activities	Resources/Suggestions
<p>Drafting-related occupations</p> <ul style="list-style-type: none"> <li>• engineering</li> <li>• architecture</li> <li>• surveying</li> </ul> <p>Some specialized fields of drafting</p> <ul style="list-style-type: none"> <li>• architectural</li> <li>• aeronautical</li> <li>• structural</li> <li>• machine</li> <li>• electrical and electronics</li> <li>• surface development</li> <li>• technical illustration</li> <li>• statistical</li> </ul>	<ol style="list-style-type: none"> <li>Identify by type the technical drawings displayed.</li> <li>Listen and observe as teacher demonstrates and explains the tools used in making mechanical drawings.</li> <li>View film, "Drafting Occupations and Opportunities."</li> <li>Using the film as a reference, contribute to a class list of jobs associated with drafting.</li> <li>Discuss under teacher direction the history of drafting and men famous in other fields who had knowledge of drafting.</li> <li>Use the D.O.T. to determine with which occupational group drafting is identified and some specialized fields of drafting.</li> </ol>	<p>Varied types of technical drawings.</p> <p>"T" square, triangles, scales, templates and other tools associated with drafting.</p> <p>16mm film: "Drafting Occupations and Opportunities," 13 min., Santa Monica, California: BFA Educational Films, 1969.</p> <p>U. S. Department of Labor, Dictionary of Occupational Titles, Washington, D.C.</p> <p>U. S. Government Printing Office, 1974-75, pp. 3 and 36. Drafting is in the three digit-occupational group with engineering, architecture and surveying.</p>

Curriculum Content	Activities	Resources/Suggestions
	<p>11. If selected by the teacher, read the drafting-related entries in the <u>D.O.T.</u>, and report to the class on the number and types of jobs listed that require drafting skills.</p> <p>12. With a partner, read the <u>Occupational Outlook Handbook</u> to secure information regarding specific aspects of drafting.</p> <p>13. Orally review names and content of high school courses that probably would be helpful to the future draftsman or engineer.</p>	<p>U. S. Department of Labor, <u>Occupational Outlook Handbook</u>, U. S. Government Printing Office, 1974-1975, pp. 226-228. •</p> <p>Suggested topics:</p> <ul style="list-style-type: none"> <li>• Nature of draftsmen's work</li> <li>• Earnings expectations</li> <li>• Working conditions</li> <li>• Normal hours of work</li> <li>• Ability requirements</li> <li>• Education and training requirements</li> <li>• Personality temperament best adaptable to draftsman's work</li> </ul>

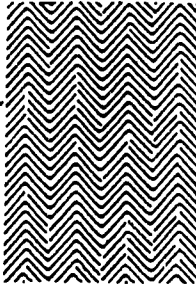

Curriculum Content	Activities	Resources/Suggestions
	<p>14. In a class sharing session, discuss the information gained, summarize the advantages and disadvantages of occupations relating to drafting.</p>	

**EVALUATION:** The student will identify basic drafting tools and their uses and to name six occupations that require a knowledge of drafting skills.

LEARNING MODULE  
PARTNERS IN CAREER EDUCATION

SUBJECT: English

GRADE LEVEL: 10

CAREER EDUCATION

LEARNER OUTCOME: 4:01

The student should be concerned with the concept of quality in relation to a task or job.

PERFORMANCE OBJECTIVE: The student will be able to compare in writing his or her concept of quality work and that of the Gessler brothers in the short story, "Quality."

Curriculum Content	Activities	Resources/Suggestions
<p>THE SHORT STORY</p> <p>"Quality" by John Galsworthy</p> <p>Identification of points of view</p> <ul style="list-style-type: none"> <li>• personal</li> <li>• dramatic</li> <li>• omniscient</li> </ul>	<p>The student will:</p> <ol style="list-style-type: none"> <li>1. Participate in a teacher-led discussion of the various points of view an author can use in telling a story, reviewing the examples provided.</li> <li>2. Read the story, "Quality," noting the point of view of the author and the theme of the story.</li> <li>3. Participate in class discussion of the point of view in the story, "Quality."</li> </ol>	<p>Teacher Information: Provide examples which illustrate the various points of view in telling a story.</p> <p>Text: Pooley, Robert C. (ed.), <u>Exploring Life Through Literature</u>, Chapter 1, "The Short Story," Dallas: Scott, Foresman and Company, 1968, pp. 94-98.</p> <p>Teacher Information: Ask question five on page 98 of the text under the section "What Do You Say?" to key discussion: "Does John Galsworthy use the personal point of view</p>

Curriculum Content	Activities	Resources/Suggestions
<p>Identification of theme elements</p> <ul style="list-style-type: none"> <li>• quality vs. mass production</li> <li>• conformity to old ways</li> <li>• non-use of new ways</li> <li>• obsolescence</li> </ul> <p>Definition of quality</p> <ul style="list-style-type: none"> <li>• Gessler's</li> <li>• general</li> <li>• student's</li> </ul>	<ol style="list-style-type: none"> <li>4. As a member of a small group, state the theme of the short story and cite passages to support the theme identified by the group.</li> <li>5. Help present and defend his or her statement and challenge the themes identified by the other groups.</li> <li>6. Participate in a class discussion of passages of the story which help determine the Gessler brothers' concept of quality.</li> <li>7. Help the class gain consensus on a general definition of quality.</li> <li>8. In writing, compare and contrast his or her view of quality with that of the Gessler brothers.</li> </ol>	<p>the dramatic point of view, or the omniscient point of view in telling his story? In answering, identify the narrator and explain the extent to which he sees into the minds and hearts of the characters."</p> <p>Teacher Information: Base discussion on questions 1-4, "What Do You Say?", p. 98 of the text. Example: 4. Describe the "quality" of a Gessler-made boot.</p> <p>Note: Encourage students to share their perceptions.</p>

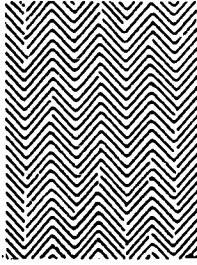

Curriculum Content	Activities	Resources/Suggestions
	<p>9. Express in writing his or her feelings about the Gessler brothers' plight, their concept of quality and the implications for quality in relation to a task or job.</p> <p>10. If he or she desires to do so, participate as class members share orally the thoughts that they have expressed in writing.</p>	

EVALUATION: The student will compare in writing his or her concept of quality work and that of the Gessler brothers in the short story, "Quality."

WELDING MODULE  
PARTNERS IN CAREER EDUCATION

SUBJECT: General Metalworking I

GRADE LEVEL: 10-12

CAREER EDUCATION

LEARNER OUTCOME: 4:04

The student should want to work for personal satisfaction and independence.

PERFORMANCE OBJECTIVE:

The student should be able (1) to join together six pieces of metal by making five welding joints, (2) to describe his or her feelings about learning the welding skills and (3) tell ways in which becoming a competent welder could help him or her achieve economic independence.

Curriculum Content	Activities	Resources
<p>ARC WELDING</p> <p>Welding with electric current</p> <ul style="list-style-type: none"> <li>. shielded metal-arc</li> <li>. carbon arc</li> <li>. tig</li> </ul> <p>Types of welding</p> <ul style="list-style-type: none"> <li>. alternating current (AC) generator &amp; transformer</li> <li>. direct current (DC) reverse and straight polarity</li> </ul> <p>Safety considerations</p> <ul style="list-style-type: none"> <li>. infrared rays</li> <li>. ultraviolet rays</li> <li>. sparks</li> <li>. burns</li> <li>. clothing</li> </ul>	<p>The student will:</p> <ol style="list-style-type: none"> <li>1. Read Unit 43 of the text.</li> <li>2. Participate in a group discussion including safety, welding experience of students, working conditions of welders, necessary safety precautions, tools used in arc welding and differences between AC and DC currents.</li> <li>3. View film loops 1, 2 &amp; 3 concerning arc starting.</li> <li>4. Discuss the film-presented procedure for striking arc by scratch and up-down methods.</li> <li>5. Learn the AWS numbering code for arc welding electrodes.</li> </ol>	<p>Text: Ludwig, McCarthy, Metalwork Technology and Practice, Unit 43, Bloomington, Illinois: McKnight Publishing Company, 1969.</p> <p>Basic Arc Welding Film Loops</p> <p>Mimeographed handout of AWS codes.</p>

Curriculum Content	Activities	Resources
Welding tools <ul style="list-style-type: none"><li>• wire brush</li><li>• chipping hammer</li><li>• wedges</li><li>• clamps</li><li>• pliers or tongs</li></ul>	6. Watch welding machines being turned on and adjusted.	
	7. Demonstrate how machines are turned on and off and how they are adjusted.	
	8. Practice striking arc with up-down motion and scratch motion.	
Electrode numbering system - AWS	9. Practice maintaining arc length and electrode angle without using lateral motion.	
Starting arc methods <ul style="list-style-type: none"><li>• up-down</li><li>• scratch</li></ul>	10. Make 90° corner weld.	Two pieces of metal 4" long, 2" wide, 1/4" thick 
		<u>Teacher Information:</u> Help students determine the condition of each weld, help them be positive about what has been accomplished.

Curriculum Content	Activities	Resources
<p>Arc motions</p> <ul style="list-style-type: none"> <li>. circular</li> <li>. semi circular</li> <li>. zig-zag</li> <li>. figure eight</li> </ul> <p>Position welding</p> <ul style="list-style-type: none"> <li>. flat</li> <li>. horizontal</li> <li>. vertical</li> <li>. overhead</li> </ul> <p>Welding joints</p> <ul style="list-style-type: none"> <li>. butt</li> <li>. lap</li> <li>. tee</li> <li>. corner</li> <li>. edge</li> </ul>	<ol style="list-style-type: none"> <li>11. Make fillet weld.</li> <li>12. Continue to make successive welding beads inside fillet (Exhibit A) until he or she has demonstrated the ability to control arc length, speed and feed.</li> <li>13. Watch a demonstration on arc movement.</li> <li>14. Practice arc motions.</li> <li>15. Watch film loops 7, 8, 9, 10 on position welding.</li> <li>16. Watch a demonstration of position welding and participate in a discussion concerning problems that may arise.</li> <li>17. Practice position welding.</li> <li>18. Make five welding joints.</li> </ol>	<p><b>EXHIBIT A</b></p>  <p>Demonstration by teacher or advanced student.</p> <p>Use Exhibit A</p> <p>Demonstration by teacher or advanced student.</p> <p>Use Exhibit A</p> <p>Cut six pieces of metal 4" long, 2" wide, <math>\frac{1}{4}</math>" thick and weld in configuration below:</p> 

Curriculum Content	Activities	Resources
	<p>19. With other class members, discuss reasons for wanting to develop welding skills and ways in which competency in welding can lead to economic independence.</p>	

EVALUATION: The student should (1) join together six pieces of metal by making five welding joints, (2) describe his or her feelings about learning the welding skills and (3) tell ways in which becoming a competent welder could help him or her achieve economic independence.

## MATRIX OF BASIC LEARNER OUTCOMES

## Category V. Skills in Human Relationships for Careers

**Learner Outcome 5:02** The student should understand how being helpful on the job can be beneficial or can have a negative effect, for example, a friendly offer of help by a co-worker can have a positive effect. Helpfulness may have a negative effect when it is done out of a need to dominate another person or from an inability to accept the fact that things might be done in different ways.

GRADE LEVEL: 11-12

SUBJECT: Homemaking: Consumer Education

CAREER EDUCATION

LEARNER OUTCOME: 1:02

The student should be able to apply decision-making steps to solve a personal problem and to make a career choice.

PERFORMANCE OBJECTIVE:

The student will be able to evaluate a decision that he or she has carried out recently and decide whether the best possible use of resources was made, the decision was in keeping with personal values and the goal was reached.

Curriculum Content	Activities	Resources/Suggestions
<p>CONSUMER DECISION MAKING</p> <p>Identifying ways decisions can be made</p> <p>Understanding and using the steps in the decision making process can lead to greater satisfaction with decision making.</p> <p>Steps in problem-solving</p> <ul style="list-style-type: none"> <li>. identify problem</li> <li>. identify values and goals</li> <li>. consider alternatives</li> <li>. put plan into action</li> <li>. evaluate result</li> </ul>	<p>The student will:</p> <ol style="list-style-type: none"> <li>1. React to statement: "Think before you act." Relate incidences in which he or she failed to heed this statement.</li> <li>2. Identify ways in which decisions should be made.</li> <li>3. Participate as the class names the steps in the decision making process.</li> <li>4. Read case studies of a family making a decision.</li> <li>5. Work in a small group to solve a given problem, following steps in the decision making process.</li> </ol>	<p>Text: Warmke, Consumer Decision Making, Dallas: Southwestern Publishing Co., 1972.</p> <p>Teacher-made transparencies</p> <p>Consumer Education Part II, Home economics, Instructional Materials Center, Texas Tech University, Box 4067, Lubbock, Texas, 79409.</p> <p>Teacher will select group problems of pertinent interest to specific class.</p>

Curriculum Content	Activities	Resources/Suggestions
Types of decisions	<p>6. Compare the group's solution with those of other groups and help determine the most satisfactory solution.</p> <p>7. List from class discussion the major and minor decisions that students have made during the past week and which they anticipate making in the immediate future.</p> <p>8. Identify decisions which are habitual and check them against the decisions listed on a transparency.</p>	<p>Teacher made transparency of common habitual decisions such as eating, brushing teeth, etc.</p>
Decisions are inter-related	<p>9. React to statement, "One decision may necessitate further decisions."</p>	<p>Teacher Information: <u>Discussion should include</u> interrelatedness of decision such as how time, money and energy used for one purpose is not available for another. Show how major and minor decisions are related.</p>
Implementing decision	<p>10. Write a paragraph illustrating each step of decision making in the management process.</p> <p>11. Respond in writing to the following statements:  a) List five steps in the decision making process.  b) List three major decisions a senior in high school usually makes.  c) List a decision and two other decisions that must be made as a result of the first.</p>	<p>Consumer Education, <u>Part II, Texas Tech guide.</u> <u>Handout of definition of</u> management (or it could be a transparency).</p>

Curriculum Content	Activities	Resources/Suggestions

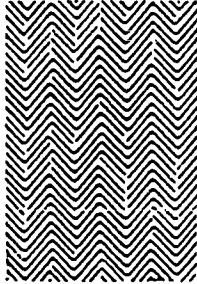

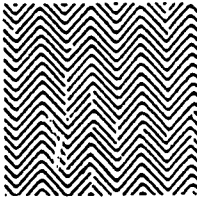

**EVALUATION:**

The student will evaluate a decision that he or she has carried out recently and decide whether the best possible use of resources was made, the decision was in keeping with personal values and the goal was reached.

## MATRIX OF BASIC LEARNER OUTCOMES

Time in England . geographical . historical  Conflicts in <u>Hamlet</u> . mother/son  Oral interpretation of scenes	<p>8. Memorize three specific quotes depicting these conflicts.</p> <p>9. Participate in a class reading of the play by volunteering for an individual part.</p> <p>10. Write an essay relating the specific conflict that is seen by individual student.</p> <p>11. View and discuss the film, "A Classic Theater: <u>Hamlet</u>."</p> <p>12. Complete an objective test naming types and techniques of drama.</p> <p>13. Take a specific conflict discussed in class and using personal experiences to prove conflict, write a subjective paper.</p>	<p>Film: "A Classic Theater: <u>Hamlet</u>," Boston: Public Broadcasting System.</p>

**EVALUATION:** The student will (1) identify techniques of drama, (2) orally interpret scenes from Hamlet, Act I, which illustrate prejudices of mother/son conflicts and (3) compare attitudes depicted in the drama with attitudes shown by people today.

# MATRIX OF BASIC LEARNER OUTCOMES

## Category VI. Self-investigation and Evaluation for Career Success

**Learner Outcome 6:03** The student should be able to identify his interests which are related to his career direction, for example: likes working outdoors or indoors, likes working with people or alone.

Subjects other than recommended subject(s) are listed alphabetically.	Recommended Grade Levels													Phase of Instruction
Recommended Subject:  Social Studies  Language Arts	K	1	2	3	4	5	6	7	8	9	10	11	12	Introduce
														
Recommended Subject:  Social Studies  Language Arts/English	K	1	2	3	4	5	6	7	8	9	10	11	12	Develop
														
Recommended Subjects:  Social Studies and Vocational Education  Language Arts/English	K	1	2	3	4	5	6	7	8	9	10	11	12	Emphasize
														

LEARNING MODULE  
PARTNERS IN CAREER EDUCATION

SUBJECT: American Government

GRADE LEVEL: 12

CAREER EDUCATION

LEARNER OUTCOME: 6:03

The student should be able to identify his or her interests which are related to his or her career direction, for example: Likes working outdoors or indoors Or, likes working with groups or alone.

PERFORMANCE OBJECTIVE:

The student will be able to portray a U. S. Representative in a role-playing situation and to indicate whether he or she prefers working with groups or alone.

Curriculum Content	Activities	Resources/Suggestions
<p>HOUSE OF REPRESENTATIVES</p> <p>Organization of U.S. House of Representatives</p> <ul style="list-style-type: none"> <li>• basis of representation</li> <li>• caucus and leader selection</li> <li>• designation of standing committees and duties</li> </ul> <p>Steps a bill goes through</p> <ul style="list-style-type: none"> <li>• Written</li> <li>• introduced</li> <li>• numbered and assigned to appropriate committee</li> <li>• discussed in committee hearings</li> <li>• recommended by committees (Pigeonhold)</li> <li>• placed on House calendar</li> </ul>	<p>The student will:</p> <ol style="list-style-type: none"> <li>1. Write the answers to the following questions:             <ul style="list-style-type: none"> <li>• What is the total membership of the U. S. House of Representatives today?</li> <li>• What is the total membership by parties?</li> <li>• How is the Speaker of the House chosen? To what party does he belong?</li> <li>• What are the names of five of the most important standing committees?</li> </ul> </li> <li>2. Discuss questions and answers in class.</li> <li>3. Participate in class selection of five standing committees which will be set up in class.</li> <li>4. Listen to newscasts and scan newspapers daily for information regarding members and activities of the House.</li> </ol>	<p>Suggested student references:</p> <p>Textbooks</p> <p>World Almanac</p> <p><u>Book of Facts</u></p>

Curriculum Content	Activities	Resources/Suggestions
<ul style="list-style-type: none"> <li>• brought to floor</li> <li>• discussed or debated</li> <li>• voted upon</li> </ul> <p>Completion of the process</p> <ul style="list-style-type: none"> <li>• passed by House and Senate</li> <li>• revised as required by joint committee</li> <li>• previewed by president and:               <ul style="list-style-type: none"> <li>signed</li> <li>vetoed</li> <li>"pocket-vetoed"</li> </ul> </li> <li>• printed and distribute</li> </ul>	<ol style="list-style-type: none"> <li>5. Become a member of the party designated by the teacher after students have counted off.</li> <li>6. As a participant in party caucuses, help select committee chairpersons, and majority and minority leaders and whips.</li> <li>7. Make a personal name tag and identify the state he or she will represent.</li> <li>8. With a student group, write a <u>bill</u>.</li> <li>9. Drop <u>bill</u> in hopper.</li> <li>10. Participate in class role-play of "Steps a Bill Goes Through" and "Completing the Process."</li> <li>11. Complete a teacher-prepared evaluation of the role-playing activity.</li> </ol>	<p><u>Teacher Information:</u> <u>Suggestion:</u> Designate students calling out odd numbers as Democrats; those naming even numbers as Republicans.</p> <p><u>Teacher Information:</u> House Leader must be a member of the majority party. Seniority should be explained although it cannot be used in the classroom situation.</p> <p><u>Teacher Information:</u> Explain to students the most frequent ways in which bills are written: administrative branch, pressure group, etc.</p> <p>Refer to Curriculum Content</p> <p>Suggested evaluation: • Which activity did you enjoy most? • Did you have an active part in decision making?</p>

Curriculum Content	Activities	Resources/Suggestions
	<p>12. With other class members discuss the results of the evaluation of the role-playing activity and indicate preference for working with groups or alone.</p>	<ul style="list-style-type: none"> <li>• Were you able to compromise when necessary?</li> <li>• Do you feel you learned by role-playing?</li> <li>• Would individual assignments and research have been more profitable?</li> <li>• Do you feel you would enjoy being a participant in real political life?</li> <li>• Would you like to work in a related field such as law-making, or other public service endeavors?</li> </ul> <p><u>Teacher Information:</u> Include in the discussion the interests, abilities and personality traits that might contribute to the success of a politician pointing out the need to be able to work with a group, make compromises, etc.</p>

**EVALUATION:** The student will portray a U. S. Representative in a role-playing situation and to indicate whether he or she prefers working with groups or alone.

## MATRIX OF BASIC LEARNER OUTCOMES

## Category VI. Self-investigation and Evaluation for Career Success

Learner Outcome 6:09 The student should be able to identify the skills he has which are necessary for success in his chosen career area.

Subjects other than recommended subject(s) are listed alphabetically.	Recommended Grade Levels													Phase of Instruction
Recommended Subject:  Science Language Arts Mathematics Social Studies	K	1	2	3	4	5	6	7	8	9	10	11	12	Introduce

LEARNING MODULE  
PARTNERS IN CAREER EDUCATION

SUBJECT: Office Procedures

GRADE LEVEL: 12

CAREER EDUCATION  
LEARNER OUTCOME: 6:09

The student should be able to identify the skills which he or she has which are necessary for success in the career area of his or her choice.

PERFORMANCE OBJECTIVE:

The student will be able to identify job requirements in three occupational areas of interest to him or her and identify the skills he or she has which are necessary for success in those career areas.

Curriculum Content	Activities	Resources/Suggestions				
OFFICE WORK  Duties of office employee  Qualities important for success in business  Self-recognition and identification of skills and attitudes by student	<p>The student will:</p> <p>1. Read Chapters 1 and 2.</p> <p>2. Make a balance sheet showing</p> <table><tr><td>Assets or (Strengths)</td><td>Liabilities or (Weaknesses)</td></tr><tr><td colspan="2">Proprietorship (What am I worth to a business?)</td></tr></table>	Assets or (Strengths)	Liabilities or (Weaknesses)	Proprietorship (What am I worth to a business?)		<p>Text: Meehan, Oliverio and Pasework, Secretarial Office Procedures, Chapters 1 and 2, Chicago: Southwestern Publishing Company, 1972.</p>
Assets or (Strengths)	Liabilities or (Weaknesses)					
Proprietorship (What am I worth to a business?)						

Curriculum Content	Activities	Resources/Suggestions
	<p>3. With several other students, select questions to be used in a job analysis.</p> <p>4. Complete a job analysis for at least three office positions and summarize the information for the class.</p> <p>5. Compose, type and mail questionnaires to business representatives in the area to find out what is involved in certain occupations in the areas of training, skill skills, duties, advancement opportunities, salaries and working conditions.</p> <p>6. Use the <u>Occupational Outlook Handbook</u> to gather information on the three business careers he or she plans to investigate.</p> <p>7. Interview a recent graduate who works in an office.</p> <p>8. After viewing films and filmstrips on preparing for a career in business, write a report on his or her career plans for the future.</p>	<p><u>Teacher Information:</u> Questionnaires would be limited according to businesses in the area.</p> <p>U.S. Department of Labor, <u>Occupational Outlook Handbook</u>, Washington, D.C., <u>U.S. Government Printing Office</u>, 1974-75.</p> <p><u>Teacher Information:</u> Allow time for questions from students.</p> <p>Films: "Opportunities in Clerical Work," 10 min., Sterling Educational Films, 1970; "Is A Career In Clerical Work For You?," 16 min., Philadelphia, Penn.: Counselor Films, Inc., 1972.</p> <p><u>Teacher Information:</u> <u>Student will include:</u></p> <ul style="list-style-type: none"> <li>immediate and far-reaching goals</li> <li>steps necessary to attain these goals</li> </ul>

Curriculum Content	Activities	Resources/Suggestions
		<ul style="list-style-type: none"> <li>requirements for career he or she has selected</li> <li>skills and personal qualities necessary for job placement, job success and advancement</li> </ul>
	<p>9. Present his or her report to the class on his or her career plans for the future.</p>	<p>Filmstrips and cassettes: "Career Exploration: Clerical Just a Secretary," "Choosing A Profession," and "Secretary Preparing for an Office Job."</p>
<p>Identification of office responsibilities, behaviors and attitudes</p> <p>Responsibilities--</p> <ul style="list-style-type: none"> <li>based on job description</li> <li>reasonable requests from supervisor</li> </ul> <p>Behaviors--</p> <ul style="list-style-type: none"> <li>cooperative</li> <li>efficient</li> <li>punctual</li> <li>dependable</li> <li>neat, accurate</li> <li>polite</li> <li>tactful</li> </ul> <p>Attitudes--</p> <ul style="list-style-type: none"> <li>respect</li> <li>concern</li> <li>work people</li> <li>involvement</li> <li>pride</li> </ul>	<p>10. Participate in a teacher-led follow-up discussion identifying the responsibilities, behaviors and attitudes expected of an individual in some of the clerical occupations reported on in activity #9 and the office procedures and policies upon which such expectations are based.</p>	<p>Transparencies: Clerical occupations and responsibilities Office behavior, attitudes and traits Procedures and policies in the office</p>
	<p>11. Write and present a skit entitled "I Have Some Good News and Some Bad News" to help describe the advantages and disadvantages of jobs in the secretarial field.</p>	
	<p>12. Read want-ads to find jobs for which he or she is now prepared and those desired jobs for which additional training would be needed.</p>	<p>Newspaper want-ads.</p>
	<p>13. Role play the part of a new employee in an office situation.</p>	<p>Suggested roles: Poorly-trained student whose skills are not adequate for job; well-prepared student who is</p>

Curriculum Content	Activities	Resources/Suggestions
Identification of office policies and procedures	<p>14. Take sample Civil Service exam or sample employment test to help assess present skills in relation to job skills.</p> <p>15. Prepare bulletin board on office skills.</p> <p>16. Confer with the school counselor about information he or she has on the student's interests, abilities and aptitudes and how they relate to the student's career decisions.</p> <p>17. In order to arrange for a field trip to a business, engage with group members in the following activities:</p> <ol style="list-style-type: none"> <li>Arrange with principal for date and time.</li> <li>Compose and type a letter to the business chosen.</li> <li>Arrange transportation and meals.</li> <li>Plan and type a questionnaire for students to take with them.</li> </ol>	<p>confident that he or she can satisfy job requirements.</p> <p>Sample Civil Service exam.</p> <p>Want-ads, magazine articles, pictures made on field trips, brochures or employees' manuals obtained from businesses.</p> <p>Counselor, aptitude tests.</p> <p>Suggested questions:</p> <ul style="list-style-type: none"> <li>What jobs are available?</li> <li>What machines are used?</li> <li>What are qualifications for jobs?</li> <li>How do employees feel about their work?</li> </ul>

Curriculum Content	Activities	Resources/Suggestions
	<p>e. Arrange for camera, tape recorder and supplies needed.</p> <p>f. Determine proper dress for students.</p> <p>g. Arrange for someone to give the group preliminary information that might make the site visit more meaningful.</p> <p>18. Write a follow-up letter to the business visited.</p>	<p>What are the advantages and disadvantages of the work situation?</p> <p>Representative of the business or teacher might review (1) what to look for, (2) familiar faces students might see and (3) something unique about the business.</p>

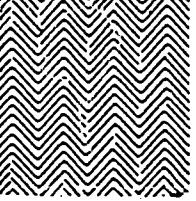

EVALUATION:

The student will identify job requirements in three occupational areas of interest to him or her and identify the skills he or she has which are necessary for success in those career areas.

## MATRIX OF BASIC LEARNER OUTCOMES

LEARNING MODULE  
PARTNERS IN CAREER EDUCATION

SUBJECT: Voc. Agriculture II

GRADE LEVEL: 10

CAREER EDUCATION

LEARNER OUTCOME: 8:01

The student should understand that the benefits of technology are the production of new, more and better goods and services.

PERFORMANCE OBJECTIVE:

During three site visits, the student will be able to determine soil classes, recommend land treatments and to describe ways in which technological changes have affected soil science.

Curriculum Content	Activities	Resources/Suggestions
<p><b>LAND EVALUATION</b></p> <p>Soil judging</p> <ul style="list-style-type: none"> <li>. importance</li> <li>. application</li> <li>. land judging score card</li> </ul> <p>Procedure for judging soil</p> <ul style="list-style-type: none"> <li>. determine texture</li> <li>. determine permeability</li> <li>. observe depth of soil</li> <li>. estimate slope</li> <li>. compute erosion</li> <li>. factors considered that prevents the land from being Class I</li> </ul>	<p>The student will:</p> <ol style="list-style-type: none"> <li>1. Take notes as teacher describes land-judging score card.</li> <li>2. Review with the class developments in soil science.</li> <li>3. Talk with retired farmers about changes in farming procedures and land evaluation.</li> <li>4. Define the vocabulary as associated with the land-judging score card.</li> <li>5. As a member of the class, judge and classify three land sites using the score card.               <ul style="list-style-type: none"> <li>. determine soil texture by feeling damp soil from a horizon</li> <li>. determine permeability from</li> </ul> </li> </ol>	<p>Agricultural Education</p> <p>Teaching Materials Center, Austin, Texas, Ag. Ed. Dept., Basic V.A. II-III, B, 3. Agdex, 016 x 520.</p> <p>Retired farmers</p> <p>Teacher Information: Reprint and give to each student a copy of the land-judging score card from the transparency master, or secure cards</p>

Curriculum Content	Activities	Resources/Suggestions
<p>Land treatments</p> <ul style="list-style-type: none"> <li>. mechanical practices</li> <li>. vegetative practices</li> <li>. fertilizer and soil amendments</li> </ul> <p>Special soils vocabulary:</p> <ul style="list-style-type: none"> <li>. land class</li> <li>. soil</li> <li>. permeability</li> <li>. erosion, soil</li> <li>. texture, soil</li> <li>. structure, soil</li> <li>. terrace</li> <li>. gullies</li> <li>. grazing</li> <li>. legumes</li> <li>. slope</li> <li>. topsoil</li> <li>. subsoil</li> <li>. surface runoff</li> </ul>	<p>observing the most restrictive horizon</p> <ul style="list-style-type: none"> <li>. estimate soil depth</li> <li>. determine % slope by observing the change of elevation in feet per 100 feet of horizontal distance</li> </ul> <p>6. Review possible practices as well as fertilizers and soil amendments.</p> <p>7. Recommend a procedure for increasing the capability of the soil class and defend the recommendation.</p> <p>8. After competing in a local land-judging contest, participate with a team at the district level.</p>	<p>from Tarleton State College, Stephenville, Texas.</p> <p>Provide information on recommended land treatments needed for different land capability classes. Also provide three nearby sites to judge by excavating the soil to the parent material or 48", whichever comes first. Also provide a 100' slope stake to enable students to determine slope.</p>
		<p>Provide the following Information on Each Land Site:</p> <ul style="list-style-type: none"> <li>. soil deficiencies</li> <li>. availability of barnyard manure</li> <li>. depth of original topsoil</li> <li>. size of field</li> <li>. factors to consider for treating land receiving the most intensive use</li> </ul>

Curriculum Content	Activities	Resources/Suggestions
	<p>9. Review technological developments in land judging and treatments that have occurred during the past thirty years and speculate on changes that may take place during the next thirty years.</p>	<ul style="list-style-type: none"> <li>present mechanical practices that should <u>not</u> be considered</li> <li>other conditions of importance</li> </ul>

EVALUATION: During three site visits, the student will determine soil classes, recommend land treatments and to describe ways in which technological changes have affected soil science.
